DETAILED ACTION

Claims 1-15 are currently pending in the instant application.

I. *Response to Arguments*

Applicants' amendment, filed on October 20, 2008, has overcome the objection to claims 2,4,5 and 10-14 as being dependent upon an objected based claims; the objection of claims 1 and 3 for containing informalities and the objection to the abstract. The objections have been withdrawn.

Applicants have not overcome the rejection of claim 15 under 35 USC 112, second paragraph as lacking antecedent basis and thus the rejection has been maintained.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 recites the limitation "distilling the organic solvent...." in step (x) of claim 1. The term "organic solvent" is not mentioned previously in claim 1 and it is unclear what "organic solvent" Applicants are referring to in the claim. There is insufficient antecedent basis for this limitation in the claim. Claim

Art Unit: 1626

15 recites the limitation “wherein the distilling of the nonpolar solvent” which is dependent on claim 1 but there is no reference to a nonpolar solvent in step (x) of claim

1. There is insufficient antecedent basis for this limitation in the claim.

III. *Objections*

Claim Objections

Claim 1 is objected to because of the following informalities: for the phrase “in the temperature” in step (iii) of claim 1 which should read “at the temperature”.
